Tasks

Procedure

- Divide the participants into groups of 4.
- Each group receives a colored card (group color).
- One group starts and selects a box, e.g., B2 = Sports.
- The group is then given a task related to sports.
- If the task is solved correctly, the box is colored in with the corresponding group color. *(**Tip**: It's best for the facilitator to mark on their task sheet which tasks they've already asked to avoid repetition.)*
- If the task is answered incorrectly, the square remains as it is.
- The groups then take turns selecting a square and attempting to solve the corresponding task.
- **The goal** is to have 3 squares of the same color colored in horizontally, vertically, or diagonally next to each other.
- If the goal isn't achieved by the end of regular playing time, the group with the most squares in its color can also win.
