Nehemiah's wooden huts

Big Game Event

See PDF file

for detailed description

Project description

For the regional holiday pass we offered a hut building. During two days we built a hut village as well as a tower. From the second to the third day, the children and the leaders spent the night in the self-built huts. On the morning of the third day, the parents were invited to join the children for a morning meal and a tour of the village. During these three days the story of Nehemiah was told in different inputs. Of course there were also plays and songs. At the end of the second day, a larger terrain game was carried out as well as in the construction breaks smaller forest games.

Make children and parents familiar with the Jungschar and also win new children for the Jungschar. The goals were achieved.

Before the project: approx. 15 children After the project: approx. 19 children:-)

Holiday pass is a super way to show what is done in the Jungschar. Through the joint morning meal at the end, we could involve the parents well.
