Scroll craft

A scroll, was used before there were books, newspapers or a PC. Many children do not know what a scroll looked like or how it was used. During the devotion this scroll can be unrolled and read out. Afterwards, each child can make such a scroll and for each new story there is a new picture in each hour, until the story, for example, of Joseph is finished.

Material

- 4x wooden ball (30mm)
- Paper brown (120 or 160 g/cm2) as desired A4 or A3
- 2x round wood (300 x 15mm)
- Borming machine
- Tape, Uhu or scotch tape
- Slime

Building instructions

Drill holes in the wooden balls.

||

Saw the logs to the right length.

||

Glue the log into the wooden balls.

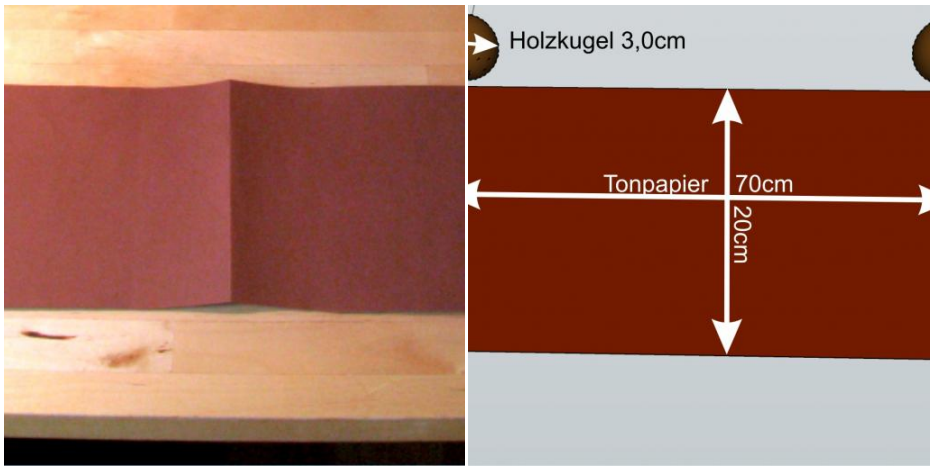

||

Cut the paper to the right size and attach it to the log with Uhu, Tesaflim and possibly a stapler.

Note

If you want to make the paper look a little older, see the article "Making Old Writing" for more info.
