The patient and the doctor

Age of participants
From 10 years old

Number of participants
Starting with 10

Description
Choose a boss, a doctor and a patient. For each of the remaining players, the boss names them with the name of the drug and a time to take it (e.g. aspirin at 4 o'clock). The doctor and patient know nothing.

The patient sits down and feigns distress. The doctor, after realizing the patient's illness, prescribes a treatment. He will say out loud:

"- He will take aspirin... (the one with the name aspirin says: at 4 o'clock)... at 2 o'clock (and the one with 2 o'clock says the medicine he has, e.g. paracetamol)..."

Players have to answer quickly.

The doctor will alternate the names of the medicines with the hours.

The one who is not paying attention will have to exit the game or serve a penalty.

The game can be continued, if all the medicines are out of the game, by choosing another doctor and another patient.
