Roll the dice!

Age: from 7 years

No. Players: 6 - 20

Description

Who is the first to hit the numbers 1 through 6 consecutively on the dice?

A dice and a piece of chalk pass from player to player in a circle. Everyone rolls the dice once (to speed up the pace of the game, you can roll 2-4 times at once). In turn, each player has to hit first a 1, then a 2...etc (and for the faster version, each player has the respective number of tries). The successful player writes the numbers in order on the table in front of him. When all the numbers from 1 to 6 appear in order in front of a player, they must be cleared in reverse order. A 6 must be hit first, then a 5...etc. The player who manages to get rid of the numbers on the table first is the winner.

Material: chalk, dice.
