

Semester Program: In a rubber dinghy on the ocean

Here you will find a semester program including a spiritual concept on the theme "In an inflatable boat on the ocean".

In the Rubber Dinghy on the Ocean is familiar to many as a childhood audio book. It is the story of a group of 8 US Army personnel who become lost in the Pacific Ocean due to a technical malfunction and are eventually forced to make an emergency ditching. With the ditching begins the exciting fight for survival where it can go around the earlobe or a Schnitz orange.

The audio book "Im Schluchboot uf em Ozean" is still available in various bookstores.

Semester programme (incl. spiritual concept)
