### Running games in knee deep water

Various running games in knee-deep water.

#### Run after

When running after, the third parties must be beaten off. Here the pursued hare must save itself diving by the legs of a player.

#### Black man with diving

All dive and may only be knocked off above water.

#### **Day and Night**

The players face each other at 2 paces in the water. The referee throws 1 black and white board between them. The person who sees the day on his side must run away, the other person must follow. (cf. Running - "Day and Night")

#### Hetzball, Neckball, Schnurball

Everyone throws from the place where he is. String about 70 cm above the water. Under the string = minus point.

#### **Numbered running**

Call on 2 numbered players to get the ball into the middle.
