

Spice Box

Are you taking home 3 cans of pepper and salt again after every camp?

Do you re-buy all your spices before each camp - and then find more somewhere?

Spices have a long shelf life and can therefore be used again in the next Pfila

What you'll need

- A crate (plastic has also worked well in rainy camps)
- spices

What you need to do

- buy spices before camp
- sort them into the box and give them to the camp kitchen
- then close the individual tins and jars well and store the crate in the materials room (cool, dark and dry)
- Before the next storage, look through the crate and check the shelf life / condition

Now you just need to add the spices and replace the empty jars
