

# Adventure Room

Adventure rooms can now be found in every major city. You are locked in a room and have to free yourself from it within a certain time. Simple adventure rooms can also be set up yourself and completed with children in a youth group afternoon

## Ideas

### Room 1

The children are tied together with household string (hemp/cotton). This household string must be burned through with matches or candle. Afterwards they have to form a robber's ladder to a balloon on the ceiling. In this balloon is the key for the door.

### Room 2

All children start in a cardboard box. Afterwards they have to solve a secret code to find a code for a safe. The safe contains a key for a hidden box, which contains the room key

### Room 3

In the room you can find a "dead" stuffed animal (staged accident site). A blackstory must be solved for this stuffed animal. When the puzzle is solved, the children receive the key

### Room 4

A room is filled with tables without gaps (makes two floors). At the start, the children are tied to the table legs with a chain and lock. The room is completely dark. They must now find a flashlight, as well as the key for the lock. At one point there is a passage to the second floor. However, this passage is covered with a board. On the second floor you can now open the door, as the door handle is on the upper floor.
