EPA-Detectives Ltd (Trimester)

A fun and engaging program, for several consecutive EPA afternoons, that allows us to follow the stories of the Bible under a magnifying glass and find the lesson in them

What is SIA Detectives Ltd.?

SIP Detectives Ltd is a programme that provides children with the chance to embark on an investigative adventure, the main aim of which is to investigate cases that relate to the Bible. It is a series of 13 SIP afternoons in each of which the children are 'detectives' and help us to unravel the given story, each time they start with a small 'clue' as they follow it, through other clues and riddles, they arrive at lots of 'evidence' that leads them to who the featured situation is from the Bible. Then, a sharing is presented through which the specific topic is discussed and shows the children the lessons that can be learned from it.

This series begins with the selling of Joseph and ends, with the selling of Jesus as a parallel is drawn between the two stories.
