Heart card holder made of wire

Make a heart-shaped card holder out of wire. The card holder fits e.g. love (God loves you), friendship (e.g. story of David and Jonathan) or is suitable as a present for Mother's Day.

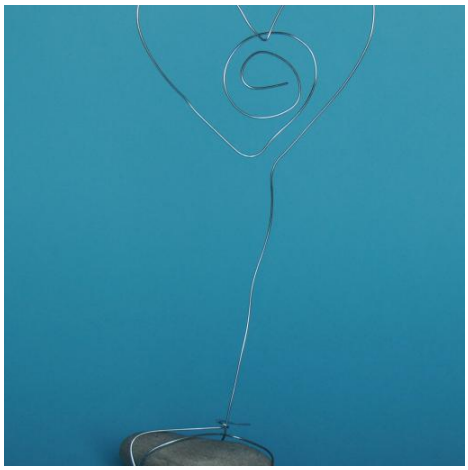

material

For the card holder:

- Wire (about 1-1.5mm thick)
- Smooth stones
- Side cutter
- Flat nose pliers

For the cards:

- A6 or A7 cards
- colored paper
- Colored pencils
- scissors
- possibly motif puncher
- possibly zigzag scissors
- Possibly Washi-day underlay

Instructions (card holder)

- Shape the wire into a spiral
- Shape heart
- Wrap wire around a stone (like a package)
- If necessary, bend the wire with flat-nose pliers
- If necessary, shorten the excess wire with a wire cutter

Instructions (card)

- Decorate the card as you wish
- Insert the card into the card holder (wedge it between the heart and the spiral)

Tips

- Make sure that the material and thickness of the wire is such that the children can still bend it
- The wire should also not be so thin or soft that it can no longer carry the card
