Game sound memori

Data:

- 7 to 14
- Between 10-15 participants
- Indoor or outdoor
- 1 leader is enough
- Up to 10 minutes at most

Materials:

- 16 matchboxes
- Different types of grains (beans, corn, lentils, etc.)

You take empty matchboxes and have to make pairs of matchboxes with the nipples. For example, 2 boxes of corn kernels, 2 boxes of lentil kernels, etc. In the end you should have 8 pairs of matchboxes. On the spot, you give the children a box to pull out. You start the game and you need the children to be able to find their box mate by the sound of the boxes. The goal is to find the pairs of children. For example, if you want 2 groups instead of pairs, you will mark half of the boxes with a marker. Once everyone has found their pair, divide them by the marked and unmarked boxes.
