Burning snowball

The snow is on fire, the snow is on fire!!! Can this be true?

Play explanation

Yes, it can be true, with camphor nämlich! For very little money, you can get a dab of it at the drugstore. Camphor looks a lot like snow

Drink a little camphor into a snowball. Put the snowball down in plain sight and light ‚it' with a match. Attention ..... please keep your distance! The snowball burns, in fact...
