Into the circle and out of the circle

Rammel game that requires no preparation and almost no effort.

Preparation

Draw a circle on the floor with a piece of chalk.

Task

Everyone stands outside the circle and tries to nudge each other into the circle. Whoever steps into the circle with both feet must stay in the circle. Their task is then to stand in the circle and pull the people who are outside the circle into the circle.

The last person outside the circle wins.

The game is not finished yet.

When everyone is in the circle, the game starts again. You try to nudge the others out of the circle. As in the previous game, whoever has both feet outside the circle stays there and tries to pull the people who are in the circle out of the circle. The last person in the circle wins.
