Implementation

- Divide players into groups of 3-5 people.
- Each player is given a blindfold.
- Each group should be accompanied by a member of staff, as the players will be running blindfolded the whole time! For very young children, allow a "look-through-moment", but not directly in front of the station.
- Each group now tries to complete as many stations as possible.
- End of the game: The game is timed. The players do not have to complete all the stations. **OR** the whistle is blown when each group has completed all the stations.
- This is followed by the evaluation of the score sheets and determination of the winner by the staff.
