The egg game

Data:

- Age group 7 to 14
- In a room with a table
- 1-2 leaders
- Up to 25 min.

Materials:

- Eggs

- Straws
- Newspapers

- Hart tape

- Balloons
- Scissors
- Silicone Erasers

Rules:

Children are divided into groups and given the necessary materials for the game. The children have between 5 and 10 minutes to plan how they will pack their egg in such a way that it will not break when dropped from a height. Once this time has elapsed, the children can start packing their egg. They have about 10-15 minutes to make a device to keep the egg secure. When the time is up the groups choose one representative and go to drop it from a high place. The winner is the one whose egg stays healthy.
