Ninja

Ninja ist ein Spiel um kurze Wartezeiten zu überbrücken.

Material
For this game you don't need more than a few people, like between 3-6.

Explanation
In this game it is about reaction.
All players stand together in a small circle and say loudly Ninja, on that they jump apart and remain still in a typical ninja position (cover picture).
In a certain order, everyone can now move once to hit a fellow player on the hand. Afterwards freeze again in the hitting position. As soon as you are touched you have lost the game.
The one who is still alone at the end has won the game.
